## Welcome to Fort HealthCare Center for Women's Health

From your first visit to the gynecologist through the birthing years and into menopause, the obstetricians and gynecologists at the Center for Women's Health provide exceptional and comprehensive care for all women, no matter what stage you are in your life.

Routine exams and screenings can help save lives. Our physicians are available to help you determine how often you should be screened for certain diseases and conditions. When problems are found early, your chances for treatment and cure are better.

## EXPERTS, READY TO HELP

Our physicians strive to keep up to date in all aspects of obstetrics and gynecology, and work together on difficult cases to provide you with the highest level of expertise. The following services are offered at our three convenient locations:

- Annual Exams
- Laparoscopic & Gynecologic Surgeries
- STD Testing and Counseling
- Birth Control Counseling and Management
- Routine and High Risk Obstetric Care
- Infertility
- Immunizations
- Menopausal Care
- Urinary Incontinence Counseling and Treatment
- HPV Vaccinations

Fort HealthCare Center for Women's Health is located close to where you live. The physicians have privileges at Fort Memorial Hospital and The Great Expectations Birthing Center.

## SPECIAL SERVICES

### BIRTH CONTROL AND OTHER OPTIONS

If you are at a point where you want to consider temporary or permanent birth control, or just want to manage your cycle better, call our office to learn about these alternatives to tubal ligation:

**Essure** is a permanent birth control procedure that works with your body to create a natural barrier against pregnancy. This gentle procedure can be performed in a doctor's office in less than an hour.

**Implanon** is a small, thin, implantable hormonal contraceptive that is effective for up to three years.

**Novasure** is a quick, safe and simple one-time treatment with no hormones and no hysterectomy to treat excessive menstrual bleeding.

## TRUST OUR EXPERIENCE AND EXPERTISE

All Center for Women's Health physicians are board-certified in obstetrics and gynecology through the American College of Obstetrics and Gynecology. Our nurse practitioner is a Certified Women's Health Care Nurse Practitioner.

Our providers are well-versed in current trends, medications, and new technologies, and tailor their recommendations to achieve the best results for you.

## WHAT YOU SHOULD EXPECT ON YOUR FIRST VISIT

To make an appointment, simply call our office and explain the reason for your visit so we may schedule an appropriate amount of time with the physician or nurse practitioner. On your first visit, please plan to arrive at our offices approximately 15 minutes prior to your appointment so we can update your records. Be sure to bring your private or government insurance information, and any data pertaining to medications you are currently taking. We ask that you be direct and honest about everything relating to us as your health care providers. If you do not understand your illness or treatment, please ask for clarification.

You can depend on the medical professionals at Fort HealthCare Center for Women's Health to provide you and your family with the highest quality care. A consultation at our clinic involves a complete review of your medical history, with particular attention to your symptoms and concerns, followed by a thorough examination, after which an individualized treatment plan is developed.

## ABOUT THE CENTER FOR WOMEN'S HEALTH

Fort HealthCare's Center for Women's Health is dedicated to providing highest quality care for women of all ages through education, prevention, wellness and intervention. Our staff of expert physicians, nurses, physician assistants and other care providers are committed to exceeding your expectations for service, access, efficiency and trust.
