

# WEIGHT MANAGEMENT PROGRAM DIET READINESS QUESTIONNAIRE

Are you ready to lose weight? Find out how ready you are by taking the questionnaire below and see where your responses fall. Lifestyle changes begin with a person willing and able to make necessary changes. Be honest with yourself. A person will be only as successful as the changes they are willing to make.

## **Section 1: Goals and Attitudes**

1. Compared to previous attempts, how motivated to lose weight are you this time?

1	2	3	4	5
Not At All Motivated	Slightly Motivated	Somewhat Motivated	Quite Motivated	Extremely Motivated

2. How certain are you that you will stay committed to a weight loss program for the time it will take to reach your goal?

1	2	3	4	5
Not At All Certain	Slightly Certain	Somewhat Certain	Quite Certain	Extremely Certain

3. Consider all outside factors at this time in your life (the stress you are feeling at work, your family obligation, etc). To what extent can you tolerate the effort required to stick to a diet?

1	2	3	4	5
Cannot Tolerate	Can Tolerate Somewhat	Uncertain	Can Tolerate Well	Can Tolerate Easily

4. Think honestly about how much weight you hope to lose and how quickly you hope to lose it. Figuring a weight loss of 1 to 2 pounds per week, how realistic is your expectation?

1	2	3	4	5
Very Unrealistic	Somewhat Unrealistic	Moderately Unrealistic	Somewhat Realistic	Very Realistic

5. While dieting, do you fantasize about eating a lot of your favorite foods?

1	2	3	4	5
Always	Frequently	Occasionally	Rarely	Never

6. While dieting, do you feel deprived, angry, and/or upset?

1	2	3	4	5
Always	Frequently	Occasionally	Rarely	Never

After you complete the section, add the numbers of answers and compare them with the scoring guide below:

Section 1 – Total Score \_\_\_\_\_  
6-16  
17-23  
24-30

**If You Scored:**

- 6 to 16:** This may not be a good time for you to start a weight loss program. Inadequate motivation and commitment together with unrealistic goals could block your progress. Think about those things that contribute to this and consider changing them before undertaking a diet program.
- 17 to 23:** You may be close to being ready to begin a program but should think about ways to boost your preparedness before you begin.
- 24 to 30:** The path is clear with respect to goals and attitudes.

**Section 2: Hunger and Eating Cues**

7. When food comes up in conversation or in something you read, do you want to eat even if you are not hungry?

1	2	3	4	5
Never	Rarely	Occasionally	Frequently	Always

8. How often do you eat because of **PHYSICAL HUNGER**?

1	2	3	4	5
Always	Frequently	Occasionally	Rarely	Never

9. Do you have trouble controlling your eating when your favorite foods are around the house?

1	2	3	4	5
Never	Rarely	Occasionally	Frequently	Always

After you complete the section, add the numbers of answers and compare them with the scoring guide below:

Section 2 – Total Score \_\_\_\_\_  
3-6  
7-9  
10-15

**If You Scored:**

- 3 to 6:** You might occasionally eat more than you would like, but it does not appear to be a result of high responsiveness to environmental cues. Controlling the attitudes that make you eat may be especially helpful.
- 7 to 9:** You may have a moderate tendency to eat just because food is available. Dieting may be easier for you if you try to resist external cues and eat only when you are physically hungry.

**10 to 15:** Some or most of your eating may be in response to thinking about food or exposing yourself to temptations to eat. Think of ways to minimize your exposure to temptations, so that you eat only in response to physical hunger.

### **Section 3: Control Over Eating**

If the following situations occurred while you were on a diet, would you be likely to eat **more** or **less** immediately afterward and for the rest of the day?

10. Although you planned on skipping lunch, a friend talks you into going out for a midday meal.

1	2	3	4	5
Would Eat Much Less	Would Eat Somewhat Less	Would Make No Difference	Would Eat Somewhat More	Would Eat Much More

11. You “break” your diet by eating a fattening, “forbidden” food.

1	2	3	4	5
Would Eat Much Less	Would Eat Somewhat Less	Would Make No Difference	Would Eat Somewhat More	Would Eat Much More

12. You have been following your diet faithfully and decide to test yourself by eating something you consider a treat.

1	2	3	4	5
Would Eat Much Less	Would Eat Somewhat Less	Would Make No Difference	Would Eat Somewhat More	Would Eat Much More

After you complete the section, add the numbers of answers and compare them with the scoring guide below:

Section 3 – Total Score \_\_\_\_\_  
3-7  
8-11  
12-15

#### **If You Scored:**

- 3 to 7:** You recover rapidly from mistakes. However, if you frequently alternate between eating out of control and dieting strictly, you may have a serious eating problem and should get professional help.
- 8 to 11:** You do not seem to let unplanned eating disrupt your program. This is a flexible, balanced approach.
- 12 to 15:** You may be prone to overeat after an event breaks your control or throws you off track. Your reaction to these problem-causing eating events can be improved.

### **Section 4: Binge Eating and Purging**

13. Aside from holiday feasts, have you ever eaten a large amount of food rapidly and felt afterward that this eating incident was excessive and out of control?

19. When you have unpleasant interactions with others in your life, or after a difficult day at work, do you eat more than you would like?

1	2	3	4	5
Never	Rarely	Occasionally	Frequently	Always

After you complete the section, add the numbers of answers and compare them with the scoring guide below:

Section 5 – Total Score \_\_\_\_\_  
3-8  
9-11  
12-19

**If You Scored:**

**3 to 8:** You do not appear to let your emotions affect your eating.

**9 to 11:** You sometimes eat in response to emotional highs and lows. Monitor this behavior to learn when and why it occurs and be prepared to find alternative activities.

**12 to 15:** Emotional ups and downs can stimulate your eating. Try to deal with feeling that trigger the eating and find other ways to express them.

**Section 6: Exercise Patterns and Attitudes**

20. How often do you exercise?

1	2	3	4	5
Never	Rarely	Occasionally	Somewhat	Frequently

21. How confident are you that you can exercise regularly?

1	2	3	4	5
Not At All Confident	Slightly Confident	Somewhat Confident	Highly Confident	Completely Confident

22. When you think about exercise, do you develop a positive or negative picture in your mind?

1	2	3	4	5
Completely Negative	Somewhat Negative	Neutral	Somewhat Positive	Completely Positive

23. How certain are you that you can work regular exercise into your daily schedule?

1	2	3	4	5
Not At All Certain	Slightly Certain	Somewhat Certain	Quite Certain	Extremely Certain

After you complete the section, add the numbers of answers and compare them with the scoring guide below:

Section 6 – Total Score \_\_\_\_\_

4-10  
11-16  
17-20

**If You Scored:**

- 4 to 10:** You are probably not exercising as regularly as you should. Determine whether your attitudes about exercise are blocking your way, then change what you must and put on those walking shoes.
- 11 to 16:** You need to feel more positive about exercise so that you can do it more often. Think of ways to be more active that are fun and fit your lifestyle.
- 17 to 20:** It looks like the path is clear for you to be active. Now think of ways to get motivated.
